Guide to uploading images

- The image you want to use must be saved to your computer's hard drive before you can upload it.
- Picture files can be one of JPEG (*.jpg, *.jpeg), Bitmap (*.bmp), GIF (*.gif) or TIFF (*.tiff) formats.
- The file size should be a maximum of 3MB (megabytes) and at least 480x480 pixels. For best results and greater image clarity on your personalised card, use larger images with higher resolutions.
- Small pictures will reproduce poorly.
- Increasing the scale of your picture may result in lower image clarity.
- Larger pictures will take longer to upload.
- The time your picture takes to upload depends on your Internet connection speed.
- If you have problems or your image is slow to upload, please contact your Internet service provider for assistance.
